

Do you
wash your
hands

after using
a public
toilet?

Chances are
you're sharing
it with those
who don't.

95% of Americans **say** they
wash their hands after using the
bathroom... but observers in
public bathrooms found that up to
38% of people **don't** wash.*

*American Society for Microbiology 2003 Survey

Health care
specialists cite
hand washing as
**"the single
most effective
way to prevent the
transmission of
disease."**

*Centers for Disease Control
and Prevention*
